

LI Series

The installation speaker of **Omnitronic's LI series** are coming in two parts. Part one is the LI-105. This is a cuboid fullrange speaker with spring clamps for parallel connection. The second part are the two 2 way speakers, LI-204, LI-206, with screw-plug-in-terminals and impact-resistant steel grille with acoustic foam. All versions come with a solid bracket for wall or ceiling mounting and have a wooden cabinet with durable textured coating in the colors black or white.

QI Series

The **Omnitronic QI** are coaxial wall speakers. The 66 ohm speakers convince with a very good sound pattern, come with 16 mm MDF cabinets and show a compact and cuboid design. That is why they are ideal solutions for bars, restaurants, shops and conference areas in hotels. It is a very stable and tiltable mounting bracket for wall and ceiling installation the series with 16 ohms speakers are equipped with. Moreover, you can find a screw-plug-in-terminal for easy installation and parallel connection.
