

Our different smoke fluids are made for different purposes. They vary in the denseness of the smoke and its durability. Depending on the desired effect, these characteristics are important.

The fog produced by fluid B dissipates very quickly. That's why it is perfectly suited for short smoke effects, for example. In a same sized room, smoke created by fluid C needs twice as long to vanish totally. The smoke fluid E provides a very dense smoke, which needs ten times as long (as B) to dissipate.

No. 51704245 Tap for 25 and 30l tank

Now without diethylene glycol (DEG)

Diethylene glycol, a substance which is often used in smoke fluids, was recently rated as hazardous substance by the European Union and classified higher regarding toxicity. According to this, new tightened labeling obligations have already come into force.

We reacted on that a developed an additional fluid without DEG. It has the same effect as the ones with DEG, but with the new fluid you ensure legal security and prevent legal disputes, liability claims, stiff penalties and health problems – this is why we really warmly recommend to use the new fluids. At Eurolite, we test our fluids stringently. And in addition, we let independent bodies continuously check the liquids.

Everyone using our smoke fluids places his trust in us. We pay it back with rigid controls of these liquids – and both sides win.

- NEW** No. 517037501L
- No. 517037525L
- No. 5170375425L

EUROLITE Smoke fluid -B2D- basic
Fog effect with medium density and hang time

- Glycerine- and DEG-free composition
- Water-based
- Odorless
- Made in Europe

- NEW** No. 517037961L
- No. 517037985L
- No. 5170380325L
- No. 51703805200L

EUROLITE Smoke fluid -C2D- standard
Fog effect with medium density and hang time

- Glycerine- and DEG-free composition
- Water-based
- Odorless
- Made in Europe

- NEW** No. 517038301L
- No. 517038325L
- No. 5170383425L
- No. 51703836200L

EUROLITE Smoke fluid -P2D- professional
Long-lasting fog effect with high density

- Glycerine- and DEG-free composition
- Water-based
- Odorless
- Made in Europe

- NEW** No. 517038441L
- No. 517038465L
- No. 5170384825L
- No. 51703850200L

EUROLITE Smoke fluid -E2D- extreme
Extremely long-lasting fog effect with high density

- Glycerine- and DEG-free composition
- Water-based
- Odorless
- Made in Europe
