

# DMB-50

## True Colors

The DMB-50 is a very special beam spotlight. It has RGB color mixing, which mixes very cleanly and congruently, despite the narrow beam angle or when using the prism. That is not common and makes this beam something extraordinary.

You get the rich single colors red, green and blue. And moreover, you can use the full possibility of the RGB color mixture. In addition, you find a gobo wheel with a wide range of patterns, a rotating prism and a DMX-controllable focus. Add to that a frost filter that delicately softens and widens the whole picture.

Futurelight®

NEW DMX TCL RGB RDM MOTOR. FOCUS

No. 51841802

**FUTURELIGHT DMB-50 LED Moving-Head**

PRO beam Moving Head with a 50 W LED and very good RGB color mixing
