

Stage Panels

Moodlight for stages, tv studios or theaters, that is what the Eurolite Stage Panels provide you with. Both middle range floodlights color in the respective location quickly and beautiful – without acting like a real wide flood.

They are equipped with 16 and 32 LEDs respectively and feature a very good RGBAW&UV color mixture. Stage Panel 16 has a beam angel of 32°, its bigger brother radiates closer with 16°. You can control the LEDs in 4 or 8 segments and thus create

diversified effects. The 4 barn doors help you avoid glaring the audience. And they also serve as transport protection.

The Stage Panels a great spots, if you like to be mobile and produce quite some light with only a few devices. They are made for bands, mobile DJs or solo entertainers. And as they work flicker free and very silently, tv studios and theaters will have fun with them as well.
