The article is no longer in our assortment.

Description:

For eyes and ears!

Surely it is the main function of speakers to sound good. But what's wrong if they are looking great in addition? Exactly, nothing. On the contrary, in this way you can give your club or party cellar that certain something. Of course the solid 3 way system, one sample out of whole series, already convinces due to its powerful treble, the smooth mid-range and its effective bass-reflex system. But with its 2 x 4 LEDs, which illuminate the discs, that are set in before the membranes, in a stylish blue, you can admix the acoustic and visual charm, which provides its very own atmosphere. Hereby, two basic settings can be distinguished. Either music controlled or consistently turned on. Go for it and let your speakers shine, for an eye and ear candy.

Logistic

EAN / GTIN: 4026397322606
