PAM-500 Active PA system

Portable active PA system

Art. No.: 11038890
GTIN: 4026397198799

Features:

- Combines a modern design with ultimate PA power
- Easy transportation in a suitcase with telescopic handle, 4 wheels, 2 brakes and transport handle
- The system includes all components needed for an exclusive presentation at industry-events, fairs etc.
- Delivery includes 2 XLR-XLR microphone cables, 2 dynamic microphones, 2 jack-jack speaker-cables, power cord
- Power tower with 6-channel mixer, power amplifier and two detachable speaker-systems
- Connection of up to four cabled mics
- Connection of further Line-signals via two stereo-channels (RCA or jack), e.g. for playback of multi-media applications from PC, notebook or portable MP3 player
- Channel 1 with voice priority function for automatic attenuation of the other channels
- 3-fold, separate tone control (bass, middle, treble) for each channel
- Adjustable echo effect or aux level for each channel
- Aux send and aux return sockets for integrating external effector and for monitoring
