

OMNITRONIC PAS-228 2-way top

2-way multi-function speaker-system

Art. No.: 11039421

GTIN: 4026397326703

The article is no longer in our assortment.

Description:

PAS-series

Our upper class speakers in wooden cabinets. And although the PAS-series is of top-quality workmanship, features a steel chassis, an unbalanced, rotatable horn with heavy-duty coil driver, and a bassreflex system it comes at a very favorable price. Moreover, it has a torsion-resistant aluminum chassis and is made of light-weight, yet solid multiplex wood.

The series abbreviations MK1, MK2 and MK3 determine the different crossovers, which have been optimized throughout the years. Every version can be modified into another version by installing a replacement crossover.

PAS-speakers can be used in many ways (lying, standing, flying, on distance tubes, in clusters). A completion to the series are the subwoofers which are powerful and persuasive.

Particularly worth mentioning are the four different wall-mounting systems (tiltable and swivelable, rotatable, tiltable on distance tubes, adjustable against walls) which allow for an unbelievably variety of applications.

Features:

- 2 x 20 cm woofer and 2 x 8 cm cone tweeter (2 x 3")
- Designed for restaurants or bars where the background music should not be too dominant
- Rugged full-range top speaker in a stable wooden housing
- Trapezoidal housing shape for easy clustering
- Qualified for suspended installation
- With passive 2-way crossover
- For applications requiring enhanced bass punch, we recommend a combination with the PAS subwoofers

Logistic

EAN / GTIN: 4026397326703

Weight: 16,00 kg

Length: 0.36 m

Width: 0.35 m

Height: 0.50 m

- Balanced frequency range with high sound-pressure
- Housing made of several layer, 18-mm birch plywood
- Scratch-resistant lacquer surface
- Impact-resistant steel grille with acoustic foam
- Can be used standing, on a subwoofer, on a speaker-stand or stand or suspended
- With flange for speaker-stand installation etc.
- Compact speaker-system for car transport
