### Description:

New and space-saving technology!

A world without CDs? Ten years ago this has been unimaginable. Today it is often reality. It has begun with MP3 players and now is continued with players, which are compatible with memory cards or USB, just like our DMP-101. In contrast to many other devices, which were designed for mobile DJs, this model is designated for permanent installation. Whether for restaurants, bars or fitness centers: the DMP is the ideal unit for a straightforward and large choice of music. So you can play your MP3 data from SD, MMC cards and USB sticks or MP3 players - also with remote control. As a consequence thereof, you can forgo CDs or even records and thus can save lots of space. The old mediums call for storage room, as is known. When you are searching for a compact and well-equipped solution for a permanent installation, the DMP-101 should be your favorite choice.

### Features:

- Plays MP3 files from SD/MMC cards and USB sticks or MP3 players with up to 4 GB
- Up to 800 songs (with 5 MB/MP3 file)
- USB 2.0 port for USB storage media
