

OMNITRONIC VRM-2200 PRO USB studio mic

High-quality USB condenser microphone

Art. No.: 13030833

GTIN: 4026397298116

The article is no longer in our assortment.

Description:

What a relieve, that high-end products can be very handy sometimes. The VRM-220 for professional studio-recording is anything but complicated to use. Via USB it can be connected dead easy to a PC. There is no need for supplementary drivers or preamps, simply plug and play. Besides, the mic is compatible with nearly every recording software for PC or MAC. Another advantage is the well-balanced frequency range for a real and natural sound.
