

OMNITRONIC Airbros 5.8G Jack Kit

Plug-n-play wireless audio system with transmitter and receiver

Art. No.: 13072342

GTIN: 4026397686128

Description:

The new mobile freedom

Airbro offers an uninterrupted, crystal clear signal and provides a completely new experience for musicians during live performances. The easy-to-use transmitter/receiver system connects instruments to an amplifier or PA system in an uncomplicated and completely inconspicuous way. The 2-piece set frees musicians from cable restrictions and allows them to move freely on stage. The range is around 30 meters.

Clear, high-resolution sound for the entire band

Experience great sound thanks to the latest 5 GHz wireless standard and digital audio transmission over the entire frequency range with 24-bit/48 kHz resolution and an almost imperceptible delay of 5.6 milliseconds. With four selectable transmission channels, you can even assign a separate channel to each band member.

Small and rechargeable

The devices work with rechargeable lithium batteries and are housed in compact cases with folding jack plugs. Thanks to a battery life of 4 hours and more, you'll be well equipped for long gigs and rehearsals. The supplied USB charging cable comes with a practical double plug.

Features:

- Replaces the cable between instrument and guitar amplifier
- Enjoy freedom of movement during live performance
- Convenient and quickly ready for use thanks to one-button operation
- Operation in the interference-free 5.8 GHz band
- 24 bit/48 kHz for the ultimate sound quality
