Set LED Strip 5in1 WiFi Controller + Remote Control Zone

Art. No.: 20000967
GTIN: 4026397699814

Features:

EUROLITE LED Strip 5in1 WiFi Controller

- Smart 5-channel Wi-Fi controller for RGB/W+CCT LEDs with app, Alexa & Google control
- LED controller with Wi-Fi technology for a smart home
 - 5-in-1 function to control multi-colored (CCT, RGB, RGBW, RGB+CCT) and single-colored LED strips
 - Works without a bridge or hub
 - Control multiple controllers at the same time
 - Excellent signal transmission with 2.4 GHz - no perceptible difference to a wired system
 - Innovative wireless technology allows multiple controllers to be controlled synchronously and asynchronously with just one remote control
 - Synchronous color sequences even over several hours with multiple controllers and different LED types
 - PWM outputs make it ideal for use with modern LED strips
