

**DIMAVERY SD-400 Snare Drum, Brass**

Snare drum with brass shell

**Art. No.: 26015270**

GTIN: 4026397395945

**Description:****It's Snare Time**

A perfect mixture of looks, sound and price. The new snare drums from Dimavery offer strong arguments. Visually, they shine in either modern chrome (Piccolo and 16,51 cm) or classy brass. Due to thoroughly worked engravings the chrome models get an embossed accent. The sound also presents itself on a high level. The Piccolo snare sounds funky and crispy. The bigger snares produce a deep and sonorous sound which fits perfectly into metal and rock music. As prices, compared to other producers, are really friendly, you get a combination which should be added on the leaflet of every price and quality-conscious musician.

**Features:**

- Brass tensioning brackets
- 10 stainless steel lugs
- Brass shell, brushed optic
- Size: 14" x 6,5"
- Die-cast hoops
- Soft inherent sound, typical for brass material
