There are cases, that are not able to offer anything more than five walls and one door. But our universal roadie case is different. Besides its three spacious sections - moreover the top section is divided in three parts - this beaut holds a special highlight: all three sections can be opened and used at the same time. At the bottom a drawer is pulled out to the front and at the top the section ist pulled to the back. Et voilà! All utensils stored in the case can be used at any time.
