Description:

DMX + Power Multipair Looms  
for the simple linking of devices which require both a DMX signal and 230 V mains  
voltage (e.g. DMX fog machines, moving lights etc.). We fit our digital DMX512 multipair combi  
cable SC-MONOLITH 1 with a PowerCon connector and a NEUTRIK 3-pole XLR connector  
and on the other side with a PowerCon and a 3-pole XLR connector.  
Our DMX cables have very low capacitive values and are therefore also an excellent choice for  
the audio or AES/EBU 110 ohms transmission.
