PRO flightcase for cymbals up to 22"

Art. No.: 31999818

GTIN: 4026397339987

The article is no longer in our assortment.

Description:

Pack your drum cymbals!

It's like the never ending story of drummers that no one is really envious of: the lavish structure and destructure of the entire set. Whereas a guitarist just takes his instrument out of the case, the drummer is required to do just a bit more than that. On top of that he has to deal with the inconvenient transport of many components. You can't really change that, but you can avoid unnecessary stress by choosing the right equipment. A very helpful solution is hereby our transport case for drum cymbals. With its incorporated pin it distinguishes itself from many flat cases in which cymbals are just muddled up randomly. The cymbals can be put over the pin and are fixed easily so that they are neatly stored. Additional protection is given through the padded interior and the multiple glue laminated wood. Cymbals surely won't sustain damages during the transport and therefore won't cause any headache to the drummer either.

Features:

- Interior and cover (not removable) upholstered with foam
- High-quality workmanship with plywood multilayered glued, black laminated
- Aluminum profile frames (20 mm) with rounded edges
- Three-leg, medium-sized steel ball corners
- 2 high-quality spring locks, supplied with 2 keys
- 4 rubber feet
- Rugged carrying handle
