Description:

Warm white audience blinder

The Audience Blinder from EUROLITE is equipped with 2x100W COB LEDs in warm white. The Audience Blinder is particularly suitable for use at concerts as well as at festivals or in theatres and on catwalks. The swivelling mounting bracket is included in delivery.

You can control each COB LED individually in static mode. The color temperature is 3100 K. In automatic mode you can use nine integrated show programs, furthermore control via DMX (also wireless via QuickDMX) is possible. The P-Con mains connections allow you to easily connect up to eight devices in series. A further advantage of the Audience Blinder is the stroboscopic effect with variably adjustable speeds.

Addressing and settings can be made using the integrated control unit with LCD display.
