Description:

ML spot with 100 W COB LED and RGB color mixing

The Eurolite LED ML-56 spotlight is equipped with a 100 Watts Chip-on-Board (COB) LED in RGB colors, which ensure homogeneous color mixing. It is suitable for use in theatres, on large stages as a front spotlight and for mobile use. Because of the additional stand bracket, the ML-56 can also be used as a floor spot.

The effect spotlight comes with a variety of functions: Automatic color change, internal and user-defined programs, dimmer and strobe effect with variably adjustable speed. The flicker-free projection even makes it possible to use the spotlight for video recording.

You can control the Eurolite LED ML-56 COB via DMX with master/slave function or in standalone mode. In addition, the built-in microphone allows you to operate the spotlight via music control.
Comfortable addressing and setting is possible via the Control Board with four operating keys and LED display.
