Description:

The slightly different "lighting effect".
Well-known from big open-air concerts and equipped with 4 or 8 Par 36 spots, this light effect is designed for stage use and also for discotheques.
The rugged casing is fitted with 4 or 8 lamps (according to the model), which are switched on simultanously and blind the audience so strong that the surroundings cannot be figured out any more for a short time.
High quality at a low price makes this special light effect interesting for smaller discotheques and mobile discotheques, too.
The audience blinder is designed for floor-installation and also for ceiling-mounting and is equipped with two stable clamping screws.
Furthermore, the two spot lines can be turned in different directions and thus enable a wide spreading.
