Set with motor, mirror ball, chain, color pinspot and IR remote

Art. No.: 50101857

GTIN: 4026397446081

The article is no longer in our assortment.

Description:

Amazing disco atmosphere and easy operation - this set makes it possible!
This affordable Eurolite mirror ball set in professional quality brings brilliant RGB colors to any party location and creates instant disco feel!
The set includes a mirror ball with a diameter of 20 cm covered with countless little mirrors. Thanks to the supplied motor, type MD-1015, the ball slowly rotates on its own axis while reflecting colorful light beams to create the familiar disco effect. The necessary light is provided by an Eurolite PST-9W pinspot which, of course, is also included in this set.
During operation, you can either rely on the fully automatic mode or you take matters into your own hands and use the supplied IR remote control. You can choose from slowly fading colors and preset intervals for rapid color changes; brightness and color mode can also be adjusted manually. It's entirely up to you to make the most of your event!

Logistic

EAN / GTIN: 4026397446081
