### Description:

High LED power with unlimited rotation

The LED MFX-2 Beam Effect by Eurolite is a compact RGBW beam effect with 2 ultra-fast moving heads with unlimited pan and tilt rotation and precise 16-bit resolution for a thrilling light show. Both heads are individually controllable and fitted with powerful 10-watt LEDs that will bring you brilliant, razor sharp beams of light with a narrow 2° beam angle. The 4in1 quad-color technology (red, green blue and white) enables particularly homogeneous color mixtures.

The LED MFX-2 can be controlled in one of two DMX modes or via external sound sources, offers 4 automated programs, dimming and strobe effects and can be operated as stand-alone, master or slave device. The LED display with four operating buttons makes for easy configuration.

The MFX-2 is cooled by a particularly silent fan and features 3-pin DMX connectors and an IEC connector for power supply. It can be operated with voltages between 100 and 240 volts and weighs only around 3 kg.

### Features:

- With Infinity function for unlimited PAN and TILT movement
