Description:

A pleasant soap opera!

Especially children are delighted and look at them with eyes wide open: soap bubbles. But there are many adults as well, who get enthusiastic about the spherical and transparent bubbles. Something, that can be found at huge parties or in clubs, where vast numbers of soap bubbles are blown into the dancing masses. On such occasions however, the appropriate equipment is indispensable. So we might introduce our BH-200 Super bubble machine. Its really strong output, that is realized via two rotating wheels, is definitely captivating. But it also the low power consumption and the simple refill system, that makes our device an absolute must have for all friends of the soap bubbles.

Features:

- Mega output via two bubble-wheels
- Rotating wheels are individually controllable
- Very low power consumption
- Filling up with bubble fluid without any problems
- Intended for standing installation
- A ventilator distributes the generated bubbles in the whole room
- Countless application possibilities for fashion shows, in discos, in carnival etc.
- Control via remote control
- Remote control has fixed connection with a 10 m cable
- Ready for operation with power plug
- Simply fill in fluid - ready!
