FUTURELIGHT EVO-3 effect-projector
Fibre optic effect projector

Art. No.: 51837556

GTIN: 4026397220582

The article is no longer in our assortment.

Description:

Let the beams of the EVO-3 hit a canvas and it looks as if there was a big spinning washer drum in the centre of the projection. The drum is filled with some coulered water that flows from side to side. This impressing effect often changes its colors and the speed of the spinning drum, altogether it is very relaxing. To let the unintrusive EVO-3 come into its own, it should be installed in bars, lounges or chillout-areas.
