

FUTURELIGHT EVO-10 lighting effect

Static deco effect

Art. No.: 51837570

GTIN: 4026397208160

The article is no longer in our assortment.

Description:

The EVO-10 deco effect is a real all-rounder. When this spot performs its show, supported from a smoke-machine, the beams remind a little bit of waterrays, coming out of a gardenpistol. One time they are concentrated to one big beam, then they disperse until they form a big mass of light, like a drizzl of colors. In addition to that, the beams rotate, move from inside-out and vice versa and constantly change colors. The speed of this action varies from slow to very fast. In clubs or on stages, the EVO-10 produces a real rain of colors. Without smoke and directed to the ground, the spot amazes with its different symbols and colorful images, that seem to be inspired by fireworks. It is out of the question; a real champion.

Features:

- DMX-controlled operation or stand-alone operation with Master/Slave function (1 slave)
- Sound-controlled via built-in microphone
- Color-wheel with 3 color filters, UV-filter, 1 color filter halved and 3 color filters quartered plus white
