Description:

Fascinating light show in RGB

The LED Light Liner by Eurolite is a professional beam effect that comes equipped with a total of 27 high-performance 1.5-watt LEDs in the basic colors red, green and blue creating impressive mirror ball effects with razor-sharp beams in colorful RGB mixes in clubs, bars and all kinds of party locations. The rotation speed can be adjusted continuously.

The LED Light Liner works with 8 preset programs. In the automatic mode, the preset light programs are played fully automatically without any further adjustments on your part. Alternatively, you can choose the sound-controlled mode via the built-in microphone with adjustable sensitivity. You can also synchronize multiple devices using the master/slave mode.

Apart from the preset programs, the LED Light Liner can also be controlled via 3 or 6 DMX channels. For the addressing and settings such as color mixing and direct color selection for 9 preset colors

you can either use the 4-digit LED display and operating buttons on the rear of the device or the supplied IR-26 remote control.

The LED Light Liner comes in a sturdy all-metal enclosure with adjustable bracket as well as an IEC mains input and a feed-through output for daisy-chaining up to 8 units.
