Description:

Four at one blow!
A group is stronger than an individual, that's a matter of fact. Time and again light effects can prove this impressively. Just compare the effect of one single flower and two, three or four devices. A big difference! But using several devices the costs are unfortunately higher and transportation as well as installation turns out to be more difficult. Now Eurolite puts things right with the LED MAT-Bar. Because the bar is equipped with four MAT-64 units, four flower effects at once. And the result really is a room-filling efffect. No wonder, in the end there a four flowers which are acting together in one group. But here is another clou: the bar is provided with a adapter flange and thus can easily be placed on a speaker stand - directly beneath the speakers. A space-saving solution, especially for mobile use.
