Description:

Flexible!

Versatile, persistent, carefree and convenient: these are the attributes of the new EUROLITE LED FX-250. The high powered flower is perfect for a permanent installation in Clubs and Bars, as it supports through its different effects both dance- and lounge music. Beside quicker movements like the one of the classical strobe, the FX-250 perfectly understands to create soft color transmissions which do remind of a mirror ball, which is illuminated from two sources. Thereby there is the option to have the flower either singularly sound controlled, synchronic to more devices or targeted to be controlled via DMX. And in relation to the enormous lifespan of the 156 10mm LEDs (48 x red, 36 x blue, 36 x green, 36 x white), which do make the service effort a thing of the past, the price for an effect as such is truly reasonable.

Features:

- Equipped with 156 10mm LEDs: 48 x red, 36 x blue, 36 x green, 36 x white
- DMX-controlled operation or stand-alone operation with Master/Slave function
- DMX control via every standard DMX controller
- 15 internal programs
- 6 LED grouping arrangements produce dynamic lighting effects
- These brilliant light beams resemble those of lasers, yet are much more impressive!
- Patterns and speed are adjustable via DIP switches
- Sound-control via built-in microphone
- Ready for connection with power cord and safety-plug
- Rugged housing with mounting bracket
- Perfect on stages, in discotheques, theatres even shops and hotels
- Advantages of LED technology: long life, low power consumption, minimal heat emission, defacto maintenance free with brilliant light radiation
