

EUROLITE LED B-20 Beam effect

Bright beam-effect

Art. No.: 51918850

GTIN: 4026397443387

The article is no longer in our assortment.

Description:

The whirlwind

Some lighting effects are meant to provide a stylish ambiance in lounges, bars and the like. And there are others designed to pump up the mood on dance floors and smaller stages. Our EUROLITE LED B-20 is a worthy representative of the latter group. It comes equipped with four High-Power-LEDs (TCL). These ultrabright LEDs produce 30 beams simultaneously, which move quickly around the room. This is due to the fact, that the two beam-balls rotate around their own axis plus around the effect's main axis. The rotation speed is adjustable via a rotary control, so everyone can find his or her own rhythm. Thanks to the multichip technology, the colors are rich and saturated and the color changes very elegant. So, if you're looking for ample action and you value well-engineered, reliable technology at a pleasing price, then you'll not need to look any further than the B-20.

Features:

- Two beam-balls rotate around their own axis plus around the effect's main axis
- 30 beams are thrown whirlwind-like throughout the room
- Brilliant, intensive colors
- Hanging or standing installation possible
- When smoke is used, this effect becomes especially attractive
- Easy installation
- Sound-control via built-in microphone
- Auto or Sound control mode selectable via switch
- Rotation speed adjustable via rotary control
- Very compact housing with comfortable carrying handle
- 4 high-power TCL LEDs
- Through the close chip placement of the multichip technology, an exquisite color mix even with short distances to the illuminated surface is provided
