Description:

Gale warning!

He can freshen, rise but also beat. So it is true to say, that something is in the wind. But fortunately, our RF-1200 does not present itself as unpredictable as the natural force. Quite on the contrary: you can choose between three different speed modes and three different air discharge angles. So you are in control and can decide, whether a storm should be raized or a gentle breeze is appropriate. Install this wind machine in discotheques, at fashion shows or in theaters and it will always cut quite a figure.
