Description:

Add a touch of spring to your rooms! With its fresh, light green tones, the artificial ornamental grass is perfect for setting decorative accents - even if the conditions are not suitable for real plants.

Light green pompons, which sit on its stalks like small decorative buttons, form the special eye-catcher of the perennial. The stems vary in height and are surrounded by lush foliage leaves made of PE. These already fall into shape by themselves when set up. A time-consuming plucking is not necessary.

The artificial plant has a total height of about 122 cm and is supplied in a plain gardener's pot, which makes it easier for you to pot up in a suitable planter and serves to better hold the plant.
