Blooming cherry tree

Art. No.: 82507833

GTIN: 4026397582277

List price: 117.81 €

incl. 19% VAT.

Description:

Spring awakening:

With their beautiful blossoms, cherry trees are among the first harbingers of spring. The color palette of the graceful blossoms ranges from white to delicate pink to bright pink. Let the "Hanami" (ritual of looking at the cherry blossoms) take place in your premises with the detailed artificial plant from Europalms!

Intertwined real stems with lianas form the trunk of the artificial plant and enhance the natural appearance. The branches of the tree crown are lush with pink textile flowers and the first, small, delicate green leaves peek out. Depending on the location and requirements, these can be bent into shape in a few simple steps (further apart = more voluminous). The included basic garden pot is covered with artificial moss and gives the plant a stable stand when setting in a planter.

Features:

- Natural trunk with lianas
- With approx. 120 lifelike leaves
- light rosecolored beautifully flowers

Technical specifications:

Trunk:	3 x natural trunk with lianas
Standing/fixation:	Gardening pot covered with moss
