Description:

A prime example of decorative trees is the artificial bamboo deluxe by Europalms. The processing of genuine bamboo trunks and the lifelike reproduction of each individual leaf give the plant its natural appearance and hardly show any difference to its natural role model. As the plant is available in different sizes, it can be used in a wide variety of ways. Whether for the design of office, practice, wellness, business premises or in the private sector - it simply fits perfectly. Leaves made of waterproof Tarpaulin also allow them to be set up in sheltered outdoor areas.

A basic gardener's pot is included in the scope of delivery, which gives the plant a stable stand when placed in a planter. The leaves only need to be bent slightly into shape.
