

EUROPALMS Parlor Palm, artificial plant, 150cm
Slender parlour palm with fronds made of high-quality textile material

Art. No.: 82509495
GTIN: 4026397641752

List price: 117.81 €
incl. 19% VAT.

Description:

The Parlour palm of Europalms convinces by its slim growth form. It is a good option if you have little space available in your living and office rooms. Environmental factors such as "light but not sunny location", "evenly warm", "no draughts", which stand in the way of the plant growth of real palms, are also irrelevant for the artificial plant. With this decorative element you can loosen up the strictness of modern furnishing or create a tropical atmosphere. The trunk of the palm tree has real bamboo sticks and palm fibre material. The artificial fronds of different lengths with textile leaves begin in the lower trunk area and give the plant an extravagant appearance. The Parlour palm has a total height of approx. 150 cm and comes in a basic gardener's pot, which gives it a stable stand when placed in a planter.

Features:

- Artificial trunk with branches; artificial trunk wrapped with natural material
- The article is delivered ready to stand
- With greencolored lifelike leaves

Technical specifications:

Trunk:	Artificial trunk with branches; artificial trunk wrapped with natural material
Standing/fixation:	Gardening pot
Color:	Green
