Description:

Whether for your residential or business area, the 3-trunk Kentia palm from Europalms is ideal as an easy-care decorative element. Your trunks are wrapped with real palm fibre material, which additionally gives the artificial palm a very natural appearance. They show off particularly well, since the palm fronds were set only in the upper range. The palm leaves are made of high-quality textile material.

We recommend to treat these optionally in regular intervals with a UV-protection spray, so that you can enjoy your palm for a long time.

The plant is available in different sizes.

Included in the delivery is a basic gardener's pot, which gives the plant a stable stand when placed in a planter. The leaves only need to be bent slightly into shape.
