Description:

Set targeted green accents with the artificial evergreen shrub from Europalms. In the twinkling of an eye, you can create a pleasant atmosphere even in simply furnished office and living rooms.

The branches of the evergreen spindle shrub protrude from a light green grass bush, whose PE leaves, graduated in length, already fall into shape by themselves when placed. The varying shades of green between the grass and the leaves of the shrub gives the plant a simple elegance and balanced appearance.

The arrangement has a total height of about 182 cm and comes in a black gardener's pot, which gives the plant a stable stand when placed in a planter. A deceptively realistic cover with artificial moss completes the lifelike appearance.

Features:

- Falls in shape by itself
- The article is delivered ready to stand
- With greencolored lifelike leaves
