### Description:

Are you still looking for the right decoration for your Halloween or theme party? The creepy face of the pumpkin monster from Europalms alone will give your party guests goose bumps. The monster tries to grab anyone who gets too close and throws its head back and forth wildly. Blinking LEDs in the hollow pumpkin's head and a gruesome spooky sound complete the effect. A built-in mechanic moves the arms of the Halloween figure forwards and backwards while the head performs circular movements. The animation is activated by an integrated microphone or wired manual control.
