Description:

With the coarse mesh rag fabric from Europalms many creative decoration ideas can be implemented. It is especially suitable for event decorations, such as Halloween and theme parties. In the blink of an eye, you can bring a touch of creepiness to any event location with the scuffed design.

The loosely woven decorative fabric has additionally incorporated large holes and is versatile with its size of 75x300 cm. Not only as a tattered throw over the tablecloth or at the Halloween buffet, but also as a window curtain the fabric comes into its own. Likewise, in combination with spiders, skulls and lighting effects, the room can be transformed into a complete, mysterious event location. Even your own costume will get the final touch with the decorative fabric as accessories.

After its use, the decorative fabric can be stored again to save space and wait for its next use.
