

EUROPALMS Halloween Figure Skeleton La Catarina, animated, 100cm

Animated figure with light, sound and motion effects

Art. No.: 83316146

GTIN: 4026397727470

Description:

Immerse yourself and your guests in the gloomy atmosphere of Halloween night and get ready for an eerie encounter with the gruesome bride of death.

The animated skull bust exudes a sinister presence with its huge eye sockets and long, bright red hair. A veil of white lace lies over the skull, which is held in place by three roses in red and black. A morbid touch that perfectly captures the horror and Halloween theme. The bride is wrapped in a black ragged robe with bony hands sticking out of it - as if she wants to whisk every visitor away to the eternal realms. During the animation, the arms move back and forth, the head makes wild circular movements, the eyes flash red and a spooky noise is heard. However, the special feature of this Halloween decoration is that it can be easily hung on a garden fence, door or cupboard. The same technology as a door coat rack makes hanging it up as easy as possible.

(For use in living rooms, we recommend covering the hook with felt to protect delicate furniture from damage).

The animation of the decorative figure can be activated using the integrated microphone, the "Step here" switch pad or wired manual control.
