### Description:

Take your guests into a fascinating world of magic and mystery with this unique decoration.

With an eye-catching, wide grin that stretches from ear to ear, the black cat is perched on a large, orange pumpkin with a scary face. This grin gives it a mischievous yet mysterious appearance that arouses curiosity and interest. The cat's eyes are illuminated by red and green LEDs, giving it a mystical glow.

The IP44 protection class also allows the decoration to be set up in protected outdoor areas.

And it's that simple:

For operation, the cat is permanently connected to the power supply via a two-meter-long supply cable. It then inflates to its full size on its own. Additional ground spikes and ropes are included to ensure a stable stand.

After the season, the air is simply released and the figure can be folded up again to save space and await its next appearance.
