

## EUROPALMS Halloween Inflatable Figure Tombstone, 183cm

Self-inflating gravestone with ghosts as a decorative object

Art. No.: 83316156

GTIN: 4026397729917

### Description:

The self-inflating ghost gravestone from Europalms is the perfect addition to any spooky event, be it a Halloween party or decorating a ghost train.

Positioned on a gray base, the gravestone with RIP inscription rises up to form the ideal base for a complete graveyard scene. Two small, mischievous ghosts have hidden behind the gravestone and are trying to scare every visitor with their arms raised. While the two ghosts are illuminated in white, red, green and blue points of light move inside the gravestone, creating a mystical atmosphere. The IP44 protection class also allows the decoration to be set up in a protected outdoor area.

And it's that simple:

For operation, the gravestone motif is permanently connected to the power supply via a two-meter-long supply cable. It then inflates to its full size on its own. Additional ground spikes and ropes are included to ensure a stable stand.

After the season, the air is released and the gravestone can be folded up again to save space and await its next appearance.
