List price: 165.41 €

incl. 19% VAT.

Description:

Ready to face the dragon?

Majestic and terrifying at the same time, the black two-headed dragon from Europalms rises to an imposing height of over two meters.

Contrasting like fire and ice, the dragon's chest and neck are bright orange and mysterious blue.

This effect is enhanced by built-in LEDs, and the whole dragon seems to pulsate with energy.

Does it serve as an attentive guardian or does it want to spread fear and terror?

While the mouth of one dragon head is wide open, revealing its sharp, pointed teeth, the other head is only half raised. This allows it to keep a watchful eye on its surroundings. Beware of its sharp purple claws in any case!

This imposing inflatable dragon is a "must have" for any themed decoration and the IP44 protection class also allows it to be set up in protected outdoor areas.

And it's that simple:

To operate, the dragon is permanently connected to the power supply via a two-meter-long supply cable. It then inflates to its full size on its own. Additional ground spikes and ropes are included for a stable stand.

At the end of the season, simply let the air out and the dragon can be folded up again to save space and await its next appearance.
