Description:

The artificial fir garland of Europalms has a particularly dense quality and is perfectly suitable as table, door or wall decoration in your living and business premises. Whether classically simple, pompously decorated or as part of an arrangement - it is versatile and does not needle. Not only at Christmas time, but also for theme decorations it finds its use.

The 270 cm long and flexible fir garland is made of high-quality LUVI material (foil cut into strips), which gives it a lush appearance. Inside, a flexible wire is incorporated, which can be easily connected at the ends - so the garlands can be extended to any length and only need to be plucked with a few hand movements.

After use, they can be rolled up again to save space and wait for their next use.
