Description:

Something you can count on!

The day of the big settlement is coming. It's by no means about craving for revenge though, but about a decent accounting in the commercial sense. This will be facilitated with the use of the EUROLITE bill counter and verifier in a brilliant mode. After all it is not only able to count 1000 notes per minute while proving the genuineness through a UV- and MG- check, but also to count certain amounts or to add up figures. Needless to say not only with Euro notes, but all popular currencies. So if you want to calculate the revenue of the evening in a quick, safe and easy manner then you should put your trust in this EUROLITE model - it cannot whitewash your figures but it can perfectly determine them at least.
