Premade cable drum systems are not only very practical and guarantee continuous mobility, they are also kind to the cable. A cable drum ensures a high life expectancy and simple handling, e.g. for outdoor transmission, broadcasting, or at sporting and school events. We supply a light and very robust metal drum HT300K made by SCHILL. It is equipped with our flexible 2-wire cable suitable for the stage, as well as the for DMX. The large wire diameter of 2 x 0.34 mm² make it ideal for long distances.
