

EUROLITE SMOKE FLUID -DSA- Effekt, 1l liquide fumigène

Effet de fumée de très courte durée, densité extrême

Réf. : 51704359

GTIN: 4026397403640

Description:

Eurolite smoke fluid - Made in Germany

Trust is good, control is of course better - therefore we test our smoke fluids according to valid norms to meet the legal requirements, for example the REACH act. There have to be reasons why a product has enjoyed public confidence for more than two decades. There have to be reasons why in 20 years we have sold more than a million units of smoke fluid.

Quality and reliability are the decisive components for success. Our customers know they get an absolute high class product with Eurolite fluids. To be high class, a product has to do more than just function - it must guarantee not to be harmful to health. This may sound a bit too dramatic, but the truth is: unclean liquids can gravely affect the respiratory system. Moreover, easily inflammable liquids can cause serious damages. Many providers do not care about these dangers.

At Steinigke however, we test our fluids stringently. And in addition, we let independent bodies continuously check the liquids.

Therefore we can guarantee that our fluids are

- water-based
- odorless
- Glycerine-free
- non-toxic
- not harmful to health
- readily biodegradable
- non-inflammable.

Everyone using our smoke fluids places his trust in us. We pay it back with rigid controls of these liquids and both sides win.

Smoke that quickly vanishes into thin air!

Using fog on stages, in studios or on exhibitions, surely creates great effects. It may yet happen, that the smoke will not disintegrate but last and thus becomes annoying in the end. At this point it is the new DSA-fluid that is brought to the scene. In contrast to the common standard, the fog is very short-lived and by that can be used more precisely and trenchantly. A perfect alternative to the persistent wafts of mist. Sometimes less is more!

Logistique

EAN / GTIN: 4026397403640

Poids: 1,14 kg

Longueur: 0.08 m

Largeur: 0.08 m

Hauteur: 0.03 m

Caractéristiques:

- Sans odeur
- Composition sans glycérine
- Inoffensif pour l'environnement
- Non nocif pour la santé
- Bonne biodégradabilité selon OECD 301E/EEC 84/449 C3
- Non inflammable, pas de restriction de transport, pas de produit dangereux
- Soumis à un contrôle permanent
- Une qualité éprouvée
- Fluide fumigène à base d'eau prêt à l'emploi
- Made in Germany
- Pour des domaines d'application tels que: Vidéo et photographie; Théâtre; Présentations produit et interventions
