Description:

Let it snow, let it snow, let it snow!

Friends of the white glory know it all too well. Just because winter is arriving, it does not mean that snow is arriving also. Never mind! The noise-reduced ANTARI S-200 helps you to conquer your independence towards the seasons. It goes without saying, that skiing on this artificial snow is impossible, but to theaters and discotheques the effect of falling snow is much more important. And due to the technical improvements there are more flakes that are even thicker than before. By the way, the foam or snow build up dissolves gradually by itself with nearly no residues. In combination with our EUROLITE fluid you can let it snow, whenever you want it to.

Logistique

EAN / GTIN: 4026397252590

Poids: 14,00 kg

Longueur: 0.61 m

Largeur: 0.38 m

Hauteur: 0.39 m

Caractéristiques:

- Silent operation at a max. of 63 dB
- Constant snowing creates a foam/snow build up, which dissolves gradually
- The dissolution of the snow happens nearly without residues
- Snow output is controlled via integrated DMX interface or supplied cable remote control
- Metal housing with carrying handle, movable mounting bracket and safety eyelet
- Removable tank
- Ideal for a winter theme in discos, theaters etc.
- With 5 l tank for permanent operation
- Suitable snowfluid: EUROLITE Snowfluid
- High-quality structure
- Grande capacité du réservoir

Données techniques:

Alimentation électrique:	230 V AC, 50 Hz
Puissance totale de raccordement:	600 W
Émission de neige:	140 ml/min
Capacité du réservoir:	5 l Liquide à neige
Consommation de liquide:	Evn. 100 ml/min
Dimension:	Largeur : 52,5 cm Profondeur : 27,6 cm Hauteur : 22,8 cm
Poids:	12,45 kg
Tank capacity:	5 l
Fluid consumption:	600 sec/l
Snow output:	140 ml/min.
DMX connection:	3-pin XLR
Dimensions (L x W x H):	525 x 276 x 227.5 mm
