

LASERWORLD EL-900RGB

Laser de spectacle de classe 3B, 900 mW en rouge, vert et bleu

Réf. : 51743207

GTIN: 7640144992125

Prix de catalogue: 617.61 €

TVA 19% incl.

Description:

The Laserworld EL-900RGB is a complete laser show in one device. It has been designed to especially meet the demands of mobile DJs and smaller nightclubs to fill the whole room and overcome the limits of rather narrow scan angles.

The EL-900RGB is an RGB show laser system with a total overall output power of up to 900mW and fast step motors with 3-8 kpps. It has four beam apertures with an individual pair of step motors.

Many of the built-in patterns have been programmed in a way that the four laser outlets play well together and fill the whole room, like a multi unit laser show. The curved shape of the unit allows for a very large horizontal deflection angle, so the laser can cover the whole room.

The Laserworld EL-900RGB can be run in sound-to-light, stand alone or DMX mode. It can display many different colors, including white!

The red diode laser module with a wavelength of 650nm, the green DPSS laser module with a wavelength of 532nm and the royal-blue laser module with a wavelength of 450nm ensure beautiful colors and bright beams. The beam has 3 mm diameter at aperture and a divergence of about 2 mrad. About 50 preset basic patterns, like layers, tunnels, fences, waves etc. are included. Many of them do not output all the same way on all four laser outlets, but some of the x-axis mirrored or modified in a way, that the laser display looks nice and homogenous.

The sensitivity of the integrated microphone can be adjusted for the sound-to-light signal perception.

Logistique

EAN / GTIN: 7640144992125

Poids: 7,35 kg

Longueur: 0.58 m

Largeur: 0.30 m

Hauteur: 0.20 m

Caractéristiques:

- Commandé via DMX; stand-alone; Fonction maître/esclave; Commande de la musique via Microphone
- Pour des domaines d'application tels que: Clubs/Écoles de danse
- Possibilité d'utilisation: Volant
- Vous trouverez de plus amples informations sur ce produit dans la rubrique « Téléchargements » de la fiche technique

L'étendue des fournitures

- 1 x laser, 1 x mode d'emploi, 1 x câble secteur/câble d'alimentation, 1 x clé, 1 x interlock

Données techniques:

Alimentation électrique:	100-240 V CA, 50/60 Hz
Type de protection:	IP20
Branchement électrique:	Alimentation électrique via Appareils froids (M) version encastrable
Classe laser:	3B
Couleur du laser:	R/G/B
Module laser:	Vert (G) 150 mW 532 nm B bleu 350 mW 450 nm Rouge (R) 400 mW 650 nm
Entrée DMX:	1 x XLR (M) 3 broches version encastrable
Sortie DMX:	1 x XLR (F) 3 broches version encastrable
Commande:	DMX; stand-alone; Fonction maître/esclave; Commande de la musique via Microphone
Couleur du boîtier:	Noir
Dimension:	Largeur : 24 cm Profondeur : 53 cm Hauteur : 9 cm
Poids:	5,5 kg
