Description:

The LED MFE-20 Hybrid Beam Effect by Eurolite is everything you need to illuminate all kinds of parties. This compact scanner can be controlled either in stand-alone mode, via DMX (4 or 13 channels) or IR remote.

The deflection mirror creates rapid color changes and its angle can be adjusted manually or automatically. The sensitivity of the integrated microphone can be adjusted manually.

A high-power 10W quad-color LED in the colors red, green, blue and white works together with an extra set of white strobe LEDs at the bottom of the device to create a true color explosion matching music of all kinds of genres: You can choose from static colors, preset programs, RGBW mixed colors as well as strobe effects.

If you wish to link multiple hybrid beam effects to illuminate bigger rooms, simply use the master/slave function and the devices work in sync.

The MFE-20 comes in a sturdy all-metal enclosure that sports an adjustable bracket, 3-pin DMX connectors as well as an IEC mains input and a feed-through output for daisy-chaining up to 8 units.

Caractéristiques:

- Scanner with adjustable mirror
- A bright 6in1 LED (R, G, B, W) is located behind the main lens; white 1 W LEDs are found on the underside of the device
- Operable in stand-alone mode or via DMX
- Adjustable microphone sensitivity via control board
