eurolite®

VSD-104 Video distributor 1in4

Amplificateur de distribution AV à 4 bandes

Réf. : 81013010

GTIN: 4026397279917

Caractéristiques:

- Distribute audio, composite video and s-video television signals from a single AV source to multiple television monitors
- Daisy-chain several units for larger displays with equal picture quality and save the expense of additional AV receivers
- Typical applications are information systems in shopping centers, schools, hotels, railway stations, airports etc.
- Integrated amplifier for lossless signal transmission
- Signal transmission up to 50 meters
- Additional Aux In for connecting a music source
- 12 V power supply via power unit included in the delivery
