Description:

Dried natural stalks of pampas grass are particularly suitable for creating long-lasting decorations and a feel-good atmosphere for your rooms in hotels, vacation apartments and restaurants.

By drying, the fluffy seed stalks of the pampas grass plant have been preserved. This way, they present themselves from their most beautiful side for a long time: whether as a single standing design element or as part of an arrangement - the natural decoration fits in perfectly everywhere.

The scope of delivery of the stalk bundle includes - depending on the size of the individual stalks - at least 12 pieces.

TIP: Treatment with hairspray/hair lacquer seals dried flowers. This counteracts the loss of single pieces, so you will enjoy your natural decoration for a long time.
