Black is beautiful!

It is almost scary, how rapidly the development of LEDs is advancing. Only the increased performances of computers or mobile phones may be slightly comparable. Anyway the diodes have revolutionized the lighting industry and pushed forward into every domain. Also in the field of black light, they put their ability to test. In this concern our LED Floodlight 252 UV is a clean proof. Not only is it amazingly powerful and thus creates an impressive UV light, but it also presents itself very versatile. It can be used for illuminating mirror balls, entrance or counter areas or as basic illumination. Due to the also delivered mounting bracket it can, moreover, be installed on a truss system. Eventually, the LEDs can as well convince with a flicker-free and pin sharp projection. Really scary these LEDs.
